TACONIC KNOCKOUT REPOSITORY

The Taconic Knockout Repository's 4,000+ KO lines provide academic and commercial researchers worldwide with unparalleled access to fully licensed, knockout mouse models. Our repository offers the scientific community immediate access to expertly derived, highly valuable research tools that rapidly accelerate translational research and the drug discovery and development processes. Eliminating the time associated with the design and development of these mouse models provides a tremendous competitive advantage.

DELIVERABLES

The KO Repository lines exist as cryopreserved materials. Cohorts can typically be produced and delivered to the customer within 14-16 weeks of order receipt. For most lines, the mouse ES cells used in generating the model are of the 129S5 strain. Lines are stored primarily as cryopreserved sperm on a mixed 129S5 x C57BL/6J- background. Lines are recovered using cryopreserved sperm and C57BL/6NTac oocyte donors. Some lines are stored as cryopreserved embryos and when revitalized will result in a 129/S5 x C57BL/6J-*Tyrc-Brd* background.

For standard orders clients will receive:

- A minimum of four (4) Mutant Mice, heterozygous for the Selected Mutation, including at least one (1) breeding pair on a mixed 129S5;B6 background
- Validated genotyping protocols
- Animal health data

PRICING

Commercial Pricing for Taconic Knockout Repository

Number of Lines Purchased	Price per Line	Price per Line for Comprehensive Phenotype Data
Single Line	\$45,000	\$25,000

Price per Line	Price per Line for Comprehensive Phenotype Data
\$30,000	\$15,000

Basic Phenotype Package: \$5,000

Multi-line discounts will be applied to lines ordered on a single purchase order (PO).

TO ORDER

GENETICALLY ENGINEERED MODELS (GEM) COLLECTION

The Genetically Engineered Models (GEM) Collection contains several hundred proprietary GEM lines that can be accessed by non-profit organizations after an MTA has been signed between the originator and host institutions (see terms of use). The GEM Collection is one of several Taconic repositories of rodent models relevant to life science research. It represents a wide range of protein target classes and includes GEM of relevance to several disease areas, such as cardiovascular, diabetes/endocrinology, neuroscience, oncology, respiratory, and immunology. Scientists seeking GEM lines can visit the FIND YOUR MODEL page to search all of Taconic's collections (e.g. GEM Collection, Taconic Transgenic Models™, Taconic Knockout Repository), providing them access to one of the world's most extensive repositories of genetically engineered mice and rat models.

The GEM Collection contains mainly conditional (cKO) and constitutive (KO) Knock Out mice, transgenic (Tg) over-expressing lines, conditional (cTTG) and constitutive targeted transgenesis (TTG) lines. The vast majority of the lines are in a C57BL/6 genetic background.

Investigators are welcome to search the Taconic website for gene(s) of interest. The webpage for each model will provide the allele diagram, detailed descriptions of how the GEM line has been generated, as well as terms of use and deliverables. Investigators from non-profit research institutions can learn how to access models from the GEM Collection and may find information about deliverables and pricing. Investigators may also contact Taconic's customer service department with any questions.

A GEM Collection order from frozen germplasm is \$4,900.00 Any additional services such as a RAPID EXPANSION are an additional service which will be billed in addition to the cryorecovery package.

[View all models in the Genetically Engineered Models \(GEM\) Collection](#)

2015 SURGICAL SERVICES PRICING

Cannulations

Taconic's cannulation procedures are typically performed several days prior to shipment to provide ample recovery time for the animals prior to transport. Patency is verified by the ability to withdraw a blood sample within 24 hours of shipment and is guaranteed upon receipt of animals.

VASCULAR CANNULATIONS

Item Number	Description	Price
CAC-R	Carotid Artery - Rat	\$91.60
CAC-M	Carotid Artery - Mouse	\$142.00
FAC-R	Femoral Artery - Rat	\$105.70
FVC-R	Femoral Vein - Rat	\$89.30
JVC-R	Jugular Vein - Rat	\$73.70
JVC-M	Jugular Vein - Mouse	\$101.10
PVC-R	Portal Vein - Rat	\$142.50

BRAIN CANNULATIONS

Item Number	Description	Price
ICVC-R	Intracerebroventricular - Rat	\$116.10
ICVC-ALZET-R	Intracerebroventricular - Rat (With Alzet™ Infusion Kit)	\$144.10
ICVC-M	Intracerebroventricular - Mouse	\$116.10
ICVC-ALZET-M	Intracerebroventricular - Mouse (With Alzet™ Infusion Kit)	\$153.30
ICVC-SCREEN	Angiotensin II Screen of ICVC - Rat	\$87.50
THIRDVEN-R	Third Ventricle Cannulation - Rat or Mouse	\$127.70
MICRODIAL-R	Microdialysis Probe Implants - Rat	\$142.70
MICRODIAL-M	Microdialysis Probe Implants - Mouse	\$191.50
CUST-ICVC-R	Custom Brain Cannulations - Rat (Please provide Coordinates)	\$138.80
CUST-ICVC-M	Custom Brain Cannulations - Rat (Please provide Coordinates)	\$165.10

TO ORDER

OTHER CANNULATIONS

Item Number	Description	Price
INTRATHE-R	Intrathecal - Rat	\$174.00
DUODEN-R	Intestinal-Duodenal - Rat	Inquire
DUODEN-M	Intestinal-Duodenal - Mouse	Inquire
BILERET-R	Bile Duct w/Duodenal Return - Rat	Inquire

Multiple cannulations and/or catheterizations may be performed upon a single animal at additive prices. IACUC approval may be needed for some cannulation and/or catheterization combinations.

Surgical Models

Taconic offers an extensive array of surgical models of disease. Please refer to care and use documents for individual procedures or contact customer service.

NEUROLOGICAL MODELS

Item Number	Description	Rat Price	Mouse Price
6OHDA	6-Hydroxydopamine Lesion of the Nigrostriatal Pathway - Including 21 day post-lesion (Less \$20.00 without evaluations)	\$198.80	-

ENDOCRINE MODELS

Item Number	Description	Rat Price	Mouse Price
ADRNLECTOMY	Adrenalectomy	\$23.80	\$26.10
HYPOX	Hypophysectomy (Rats>50gm)*	\$65.10	-
THYPARA	Thyro-Parathyroidectomy	\$47.10	-

* Price includes 6 to 10 day post op holding charges

REPRODUCTIVE MODELS

Item Number	Description	Rat Price	Mouse Price
CASTR	Castration	\$21.60	\$22.90
OVR	Ovariectomy	\$22.40	\$23.10
VASEC	Vasectomy	\$29.00	\$29.50

TO ORDER

RENAL DISEASE MODELS

Item Number	Description	Rat Price	Mouse Price
56NEPREC	Subtotal Nephrectomy:	-	-
	Subtotal 5/6 - 2 Stage (Rats)	\$122.10	-
	Subtotal 3/4 - 1 stage (Mice)	-	\$135.70
NEPREC	Nephrectomy	\$34.90	\$33.50

OTHER PROCEDURES

Item Number	Description	Rat Price	Mouse Price
SPLENEC-R	Splenectomy	\$25.40	-
SPLENEC-M	Splenectomy	-	\$29.40
IMPLANT	Implants (SQ)*	\$15.80	\$15.8
INJ-IP	Injection (IP)	\$5.60	\$5.60
INJ-SQ	Injection (SQ)	\$5.60	\$5.60
INJ-IV	Injection (IV)	Inquire	Inquire

*Pellet or Microchip Implants do not include cost of implant

OPTIONAL ITEMS

Item Number	Description	Rat Price	Mouse Price
JACKET	Jackets	\$42.30	-
HOLD-M	Daily Post Surgery Barrier Holding - Mouse	-	\$3.90
HOLD-R	Daily Post Surgery Barrier Holding - Rat	\$5.90	-

ADDITIONAL FEES AND NOTES

- Fee of \$39.70 is added to all orders requiring less than 10 animals.
- Fee of \$14.40 per animal is added to all orders for immunodeficient mice or rats - additional precautions are taken to help minimize the risk of changing RFTM to MPFTM health status.
- Sham prices are 75% of full surgical procedure price.
- Surgeries for Taconic Transgenic Models™ (TTMs™) will require a custom quote.
- The price of the animal is in addition to the surgical service. Animals ordered by weight will arrive within a reasonable tolerance to weight specifications. Though weight-specific surgeries are possible upon request, please contact Customer Service for more information about your specific procedure.

TERMS AND CONDITIONS FOR SALE OF PRODUCTS

Limited Warranty

Taconic Biosciences, Inc. (“Taconic”) represents and warrants that at the time of delivery the ordered animals shall conform to Taconic’s model number and sex listed on the Taconic packing list delivered for such animals. Customer shall visually inspect animals upon delivery to customer. Any health issue or quality control issue which can be noted upon visual inspection shall be reported to Taconic in writing within three (3) business days following delivery of the animals. If no written notice of health or quality control problems are provided within said three business day time period then the animals shall be deemed accepted in this regard. In addition, customer shall inspect the animals during the thirty (30) day time period following delivery and shall provide written notice to Taconic of any other reasons for rejection of an animal. If no written notice of any other reason for rejection is provided within said thirty day time period then the animals shall be considered fully accepted. In the event of any rejection of the animals, customer’s sole remedy and Taconic’s exclusive liability shall be, at Taconic’s option, either the replacement of the rejected animals or a refund of the fee paid for the animals in question.

THE FOREGOING WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESS OR IMPLIED RELATING TO THE ANIMALS. TACONIC DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR FOR NON-INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS.

Limitations of Liabilities

In no event shall Taconic be liable to customer, or to any third party claiming by or through customer, for any special, incidental, consequential, exemplary, punitive, multiple or other indirect damages, or for loss of profits arising out of the provision of animal models, failure to deliver animal models conforming to specifications, or delay in delivery of animal models, whether based upon warranty, contract, tort, strict liability or otherwise, even if Taconic has been advised of the possibility of such damages or losses.

Taconic’s liability arising out of provision of animals, failure to deliver animals conforming to specifications, or delay in delivery of animals, whether based upon warranty, contract, tort, strict liability or otherwise, shall not exceed the fee paid by customer for such animal.

An action regarding animals delivered to customer may not be brought by customer more than one (1) year after the delivery of the animals, failure to deliver animals, or delay in delivery of animals.

Indemnification

Customer agrees to defend Taconic and its affiliates at customer’s cost and expense, and will indemnify and hold Taconic, its affiliates, and their respective directors, officers, employees and agents (the “Taconic Indemnified Parties”) harmless from an against any losses, costs, damages, fees or expenses arising out of any third party claim relating to the use of the delivered animals by customer, and/or any materials or any products obtained from the animals, including strict liability claims. Customer may not sell the animals, or any progeny of animals, to any third party without the prior written consent of Taconic.

TERMS AND CONDITIONS FOR SALE OF SERVICES

Limited Warranty

Taconic Biosciences, Inc., (“Taconic”) provides services to its customers on a contractual fee-for-service basis. Taconic warrants that it will perform the services with due care and in accordance with agreed-upon protocols or if no protocols are specifically agreed upon then in accordance with Taconic’s standard protocols for the relevant services being provided. Any claim by customer for breach of this warranty shall be made in writing to Taconic no later than ninety (90) days after the date that the report regarding the services is delivered to customer. Customer’s sole remedy and Taconic’s exclusive liability for a breach of this limited warranty shall be, at Taconic’s option, either the re-performance of the service or a refund of the fee paid for the service in question.

THE FOREGOING WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, RELATING TO THE SERVICES TO BE PERFORMED OR THE ACCURACY OF THE RESULTS OBTAINED. TACONIC DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR FOR NON-INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS.

Limitations of Liabilities

In no event shall Taconic be liable to customer, or to any third party claiming by or through customer, for any special, incidental, consequential, exemplary, punitive, multiple or other indirect damages, or for loss of profits arising out of the performance of the services or the failure, negligence or delay in performance of the services, whether based upon warranty, contract, tort, strict liability or otherwise, even if Taconic has been advised of the possibility of such damages or losses.

Taconic’s liability arising out of the performance of the services or failure or delay to perform the services, whether based upon warranty, contract, tort, strict liability or otherwise, shall not exceed the fee paid by customer for such services.

An action regarding services may not be brought by customer more than one (1) year after the services are performed by Taconic.

Indemnification

For each service that customer provides materials (including compounds, biological materials or other materials, the “Customer Materials”) for use by Taconic in the performance of the services, the customer agrees to defend Taconic and its affiliates at customer’s cost and expense, and will indemnify and hold Taconic, its affiliates, and their respective directors, officers, employees and agents (the “Taconic Indemnified Parties”) harmless from an against any losses, costs, damages, fees or expenses arising out of any third party claim relating to the Customer Materials, the use of the Customer Materials by Taconic for the performance of the services, or to the use by customer of any product or result obtained through the services, including strict liability claims.

CANCELLATION AND CHANGE ORDER POLICY

Orders can be canceled or changed up to the cutoff time listed. Be sure to cancel an order prior to the cutoff time or cancellation fees up to the entire price of the order will be applied.

Order Type	Cutoff day/time
Traditional Models	By 3 p.m. ET, two days prior to ship date
Spontaneous Mutant Models	By 3 p.m. ET, two days prior to ship date
Special setups, Exact date of birth and Time pregnant orders	Before breeders are setup or isolated
Taconic Transgenic Models™	4 weeks prior to ship date
Emerging Models	4 weeks prior to ship date
Surgically Modified Models	By 5 p.m. ET, day prior to animals transferred to surgery
Aged Animals 13 weeks	Prior to animals reaching 13 weeks of age
Embryo Derivations and Cryopreservation	Prior to animals arriving at Taconic
Molecular Analysis	Prior to receipt of samples
Animal Health Testing	Prior to receipt of samples
Custom Breeding Projects	Prior to project initiation
Murine Biospecimens	Prior to project initiation

TO ORDER

ORDERING INFORMATION

SHIPMENT CONTAINERS

Rat and mouse models are packed in their barrier unit of origin or laminar flow hoods and shipped in sterilized Taconic Transit Cages™ (TTC™) with a food and hydration source.

Traditional and Spontaneous Mutant Models - no charge for the TTC™.

Germ-free rats and mice are packed in special germ-free shippers.

Transgenic Support Products can be shipped on wet ice for \$18.60 per carton or dry ice for \$26.80 per carton.

ORDERS REQUIRING ANIMALS OF A SPECIFIC WEIGHT

Mice and rats can lose up to 10% of their body weight in transit, however after 48 hours acclimation most models can be expected to regain any weight lost in shipment.

Taconic will select animals within a typical weight range for its corresponding age at no additional charge. Weight charts are provided as a guide, however more detailed weight data is available at the client's request.

All weights are weights at the time of packing.

Orders for specific weight spans take additional time to select and pack and as such will be assessed a nominal fee of \$1.00 or €0.70/animal. This fee will not apply to SD, WH and Long Evans rats except when the span is less than 25 grams.

Mice can be ordered with a minimum 3 gram span (i.e. 10- 13 grams) and rats with a minimum 10 gram span (i.e. 200-210 grams).

BIRTH DATES

Week of birth and source barrier unit identification are provided on shipping labels. For exact "date of birth" requests on Traditional Models, place orders prior to the needed birth date.

Week of birth (Date of birth +/- 3 days): No Charge

Exact date of birth: \$3.50 or €4.30/animal (Non-GEMs - traditional models)

ADDITIONAL SERVICES

GEMS DESIGN

Taconic's GEMS Design solutions empower our clients to develop research models specifically suited to the unique needs of their discovery and development studies or therapeutic programs.

- Gene Inactivation
- Gene Mutation or Replacement
- Gene Editing - CRISPR Technology
- Transgene Expression
- miRNA expression
- Cohort Production Packages

GEMS MANAGEMENT

Taconic's fully integrated GEMS Management brings innovative models from design to study ready cohorts with unprecedented speed and transparency.

- Embryology
- Rapid Colony Expansion
- Surgical Services
- Tissue Collection
- Animal Health Testing and Diagnostics
- Genotyping and Molecular Analysis
- Microbiome and Germ-Free Research Models and Services
